

Unleash Your Inner Scientist: Project Menu

Directions: Take a look at the different ways you can explore a science topic on the choice board. Choose the ONE activity that you think will best help you show what you've learned and that you will enjoy working on!

Write the topic you will be learning about on the line below.

Ask and Investigate 	Model It! 	Be a Data Detective 
Pick something you're curious about and plan how to test it.	Build a model to explain a science idea or process.	Ask a question, collect answers, and see what you discover.
Math Connections! 	Explain It! 	Solve a Problem! 
Use math to show patterns or relationships in our topic.	Look at clues and explain why something happened.	Design a solution to a problem related to our science topic.
Tell a Story 	Create a Visual! 	Be the Teacher! 
Imagine a scenario related to this topic and tell a story about it. Make sure your story shows your understanding of the science.	Draw, paint, or create something on the computer to show a science idea. Be ready to tell about your picture or creation.	Choose a creative way to share what you've learned.
